Russian Forces Capture Turkish Town; Austro-Hungarian Troops in Retreat

BATTLE ON BRITISH LINE CONTINUES WITHOUT ANY INTERMISSION

English Push Forward to Fouraux Wood Where Germans Counter Attack With Intense Bombardment With Gas Shells—Charge on French Lines Fails, Germans Suffer Heavy Losses and Are Driven Back in Disorder—Heavy Artillery Fighting at Verdun—Fierce Fighting on Italian and Eastern Fronts.

Vienna, July 21, via London, 9:15 p. m.—Under the pressure of attacks by the Russians the Austro-Hungarian forces in the region of the Styria and Lipa rivers, north of the Galician border, have been forced to withdraw to new positions in the region of Berestachk says an official statement issued by the war office today.

Petrograd, July 21.—The capture by Russian troops of the town of Gumushkaneh, forty-five miles southwest of Trebizond, in Turkish Armenia, was announced today by the war office.

Gumushkaneh is forty miles northwest of Baiburt, the capture of which was reported by the Petrograd war office on July 16. It is about 50 miles directly north of Erzignan, the objective of the Russian army which recently took Mamakhatun, 50 miles to the west.

The Anglo-French offensive in northern France is being vigorously pushed. Driving from Bazentin and Longueval toward Bapaume, General Haig's troops have advanced as far as the Fouraux wood. South of the Somme the French have been able to hold trenches captured in their drive along a five-mile front on Thursday, withstanding a vigorous counter attack.

Special despatches from Copenhagen to London report the capture by a German warship of the American sailing vessel Prinz Valdemar, bound from an American port for Sweden with a cargo of oil.

The British steamers Yzer and Grangemoore, both vessels of some what more than 3,000 tons are reported sunk.

British Push Forward. London, July 21, 2:55 p. m.—The British line north of Bazentin and Longueval has been pushed forward in Fouraux wood, the war office announced today. The British drove the Germans from the wood but lost part of this position subsequently.

The statement says: "The battle continues without intermission between the Lepsic road on the west and Delville wood on the east. North of the Bazentin—Longueval line the British advance has been pushed to Fouraux wood from which we drove the enemy."

"During the night the enemy counter attacked after an intense bombardment with gas shells and succeeded in effecting entry into the northern part of the wood, but failed to dislodge us from the southern half."

"Elsewhere there is no change."

German Losses Heavily. Paris, July 21, 12 noon.—Positions captured yesterday by the French south of the Somme were subjected to a vigorous counter attack during the night. The Germans charged the French lines south of Soyecourt but the war office announced today suffered heavy losses and were driven back in disorder.

A strong German detachment which advanced to the attack in the Chaulnes region was repulsed with the bayonet.

Between Soissons and Rheims the French penetrated a German trench, clearing it of its defenders.

On the Verdun front the artillery was active on both sides in the vicinity of Chattancourt and Fleury.

French aeroplanes successfully bombarded stations at Conflans, Mars-la-Tour, Longuey and Briulles.

Heavy Counter-Attack. "South of the Somme the enemy delivered a counter attack on our new positions south of the assault was caught by our curtain of fire and by our machine guns and was thrown back in disorder after having suffered great losses."

Between Soissons and Rheims the French penetrated a German trench, clearing it of its defenders.

"The night was calm on the other side of the Somme. In the region of Chaulnes a strong detachment of the enemy which attempted to approach our lines south of Maucourt was repulsed with the bayonet. Between Soissons and Rheims, northeast of Vendresse a French reconnoitering detachment, assisted by the explosion of a mine, penetrated a trench of the enemy, which was cleared out with grenades."

Violent Bombardment. "In the Vosges after a violent bombardment an attempt was made without success to storm our positions north of Wiembach."

"On the day of July 20 and during the night of July 20-21, our aeroplanes squadrons bombarded several important points behind the enemy's lines. The stations at Conflans, Mars-la-Tour, Longuey and Briulles and the railroad junction at Ham were bombarded

"HERO OF THE MARNE" REPORTED TO BE DIRECTING FRENCH FORCES AT VERDUN

General Mangin.

It is reported that General Mangin is directing the operations of the French army on the Verdun battle front. General Mangin has come to be known in France as the "Hero of the Marne." It was through his energy and presence in the midst of his troops that he was able to maintain a counter attack against the Germans in the battle of the Marne, a year ago last September.

Helena, Mont. July 21.—Heavy emigration of Romanians from Montana, all going east, was reported here today. When asked whether Rumania had summoned her reservist men they would not discuss the matter.

MINE LAYER IS ON EXHIBITION

German Submarine, One of Latest Prizes of British Navy, Visited by A. P. Correspondent.

U-35 BOAT DESCRIBED

Was on Twentieth Trip and Had Laid Over 200 Mines When Captured by Patrol Boat.

London, July 21.—The German submarine mine layer, which is one of the U-35 class, one of the latest prizes of the British navy, was visited by an Associated Press representative today prior to its being placed on public exhibition in the Thames.

The prize, flying the German naval ensign, surrounded by the British ensign, lay in a naval dock yard on the east coast. The vessel is designed purely for mine laying. The entire forward part is composed of wells, six in number, each containing two powerful mines which can be released by levers. The ship has no torpedo tubes or other armament except small arms for the crew and is only 100 feet in length.

Thirteen bluejackets and five officers comprise the crew of the submarine. According to one of the seamen she made prior to her capture 19 trips from her base in Germany to the British coast and laid over 200 mines in routes frequented by merchant vessels. She was on her twentieth trip when she was captured by the British patrol boat.

The sailors said that when the submarine was sighted and chased by a patrol boat the crew tried to get rid of her remaining mines but had not sufficient time. Seeing that capture was inevitable, the officers ordered the abandonment of the ship, destroyed the log and other records and virtually demolished the six cylinder Diesel engine of approximately 250 horse power. All of the crew and officers were taken prisoners.

The hull of the submarine is in good condition but shows a number of dents where it struck obstacles in its underwater voyages. The craft shows signs of rapidity of construction but appears well fitted for short trips across the North sea. British naval officers pointed out that the mines carried no apparatus for rendering them harmless, if they broke loose from their moorings, as required by The Hague convention.

SOLDIER CAMPS ARE INSPECTED

Major-General Bliss Finds Excellent State of Health With Sanitary Conditions Good.

MEN WELL SHELTERED

Camp Water Supply System Nearly Completed—Abundant, Excellent and Varied Rations.

Washington, July 21.—Another report today from Major General Bliss on the condition of national guard camps on the Mexican border said he found the camp at Llano Grande, Donna, Mercedes and Harlingen, Texas, in an excellent state of health with sanitary conditions ranging from good to excellent.

The dispatch follows: "Finished inspection of Minnesota and Indiana infantry brigades and two regiments of Nebraska infantry and auxiliary troops from these states, all stationed at Llano Grande and portions of Texas infantry brigade stationed at Donna, Mercedes and Harlingen. With the exception of one Indiana regiment which was in shelter tents, the troops inspected today are comfortably sheltered. The large tents for this regiment are coming by express today."

"Command is in excellent state of health, the sick report being practically negligible. Camp water supply system at Llano Grande is nearly completed. The water at all stations inspected is of excellent quality. Sanitary conditions of the camps varied from good to excellent. The conditions of the poorer camps in this respect is being rapidly improved."

"All officers and men interviewed by me stated that the rations are abundant in quantity, excellent in quality and of suitable variety. General spirit of contentment the same as indicated in my previous telegram."

Nominating and Seconding Speeches Made and J. Frank Hanley Wins on First Ballot.

St. Paul, Minn., July 21.—The national prohibition convention resumed its work shortly after ten o'clock and after a brief discussion adopted the platform without serious opposition. By a rising vote the convention included in the platform E. W. Chaffin's plank endorsing the initiative, referendum and recall.

The platform of the National Prohibition party, adopted at today's session of the party's convention, denounces the liquor traffic as a crime, declares for nation-wide prohibition and equal suffrage and opposes the military programs of the Republican and Democratic parties, but favors constructive platform, which, summarized, makes the following declarations:

Favors national legislation to encourage the establishment of an adequate fleet of merchant ships.

Opposes war with Mexico; pledges aid to the protection of American lives and favors use of force when necessary.

Aside from a plank declaring in favor of the initiative, referendum and recall which was agreed upon after a short discussion, the platform was adopted today as originally drawn.

VILLA PLANS TO TAKE TORREON

Bandit Chief With 1800 Men Directing Campaign Is Reported to Pershing.

San Antonio, Texas, July 21.—Corroboration of the reports that Francisco Villa is personally directing a campaign that has for its immediate object the capture of Torreon was contained in a report from General Pershing to General Funston today.

General Pershing's report was filed yesterday at Columbus and appeared to have been written the day before. Information that had reached General Pershing at that time was that Villa with 1800 men was planning an attack on Torreon. He added that it had been definitely established that Villa still was suffering from the wounds in his right leg. General Pershing said Villa was using a crutch.

No orders have been sent to General Pershing to resume operations against Villa.

ITALIAN DECREE AFFECTS GERMANS

Order States That All Allies of Austria and Hungary Are to Be Treated as Enemies.

Rome, July 20.—Via Paris, July 21, 12:55 a. m.—A ministerial decree was issued today placing the persons and property of Germans on the same footing of those of Austria and Hungary. The decree does not directly mention Germans but states that all allies of Austria are to be treated as enemies and their subjects and goods are liable to sequestration.

Prior to the war German property and interests in Italy were estimated to be worth \$250,000,000. Their value now is placed at \$150,000,000. There are only a few German subjects in Italy now and these will either be placed in concentration camps or sent across the Swiss border.

Strong Agitation in Italy.

There has been a strong agitation in Italy for some time for the breaking off of all relations with Germany. The curious situation caused by Italy being at war with Austria while nominally at peace with Germany was emphasized by an agreement between Rome and Berlin wherein all rights of the citizens of one country domiciled in the other were to be respected. On July 16 this agreement was denounced by Italy on the ground it was not being observed by Germany.

At the great council of the entente powers held in Paris last February the Italian representatives were pressed for an explanation as to why Italy had not declared war on Germany. On February 29 Italy requested 24 German ships which were interned in Italian ports. As a similar action by Portugal had promptly called forth an ultimatum from Berlin which was followed by a declaration of war, it was confidently expected that the same sequel would follow in regard to Italy. As far as is known, however, Wilhelmstrasse did not even make a protest. If war is now declared Italian troops may be sent to the western front, according to the expectations expressed in London and Paris.

STORY OF FIGHT ON THE SOMME

French Advance to Attack Simultaneously With British—German Trenches Occupied.

GERMANS FROM VERDUN

More Big Guns Brought Up—Great Mortality—Only 120 Left Out of 1100 Battalion.

British Front in France, July 20, 6 p. m., via London, July 21, 2:10 a. m.—"The French are attacking." This was the message that the rapid fire of their 75's and the thunders of their heavy guns brought from the valley of the Somme over the hills to the British lines.

While marking time while the British took the second line in front of them, the blue tide of French soldiers on the right of the British khaki advanced at dawn to play their part in the development of the entente allied plans and the people of the towns in the rear had the welcome news at luncheon hour that the soldiers were already in occupation of German trenches north of the Somme and had gained ground south of the Somme.

Meanwhile, the Australians on a two mile front in the Armentieres-Neuve Chapelle region took part in the biggest trench raid ever undertaken, its extent making it a departure. After cutting the wire by shell fire they rushed the German trenches, doing what damage they could by bombing and hand-to-hand fighting before retiring to their own trenches.

During the French attack the guns on both sides were untiringly busy. Having been pushed from the positions in Delville wood secure, the British stormed the high road, and in both these woods and the fields between the front and the village of Guillemont, the Germans, massing fresh forces brought from Verdun since their whole tactical situation in the Somme region became endangered, resisted the British advance and their positions in Delville wood secure, the
